

Thanks for allowing me the opportunity to help you determine whether filing for bankruptcy protection is right for you.

Let me put this questionnaire into context: In order to properly analyze your situation and determine what you should do and when, I need to know certain details about your income and expenses, your property, your financial history and your debts. If the information you provide is inaccurate or incomplete, my analysis and advice will consequently also be inaccurate or incomplete.

Please provide the requested information in as much detail as you can. Everything you tell me is completely private and confidential, so please don't intentionally omit any information.

For expenses that you don't spend every month, such as property taxes, try to determine how much you spend in a year's time, and divide that amount by 12.)
